

TABLE OF CONTENTS

I. Module-1 Introduction to Salesforce

- Salesforce and CRM Basics
 - What is Salesforce.com
 - What is CRM
 - Advantages of CRM
 - Architecture of Salesforce
 - When Salesforce Release Come
 - Benefits of Salesforce
- Salesforce Platform and Environment
 - What is Salesforce Platform
 - What is Salesforce Environment
 - Characteristics of Salesforce Environment
 - Types of Salesforce Environment (Production, Development, Testing)
- Salesforce Editions and Pricing (Essentials, Professional, Enterprise, Unlimited, Developer)

II. Module-2 Salesforce Navigation and Setup

- Salesforce Developer Account
 - Create a Salesforce Free Developer Account.
 - Log in to the Salesforce Free Developer Account.
 - Log out of the Salesforce Developer Account.
 - Reset the password in the Salesforce Free Developer Account.
- Salesforce Lightning and Classic User Interface
 - What is the Salesforce Lightning User Interface?
 - What are the features of the Salesforce Lightning User Interface?
 - What is the Salesforce Classic User Interface?
 - What are the features of the Salesforce Classic User Interface?
 - How to navigate from Salesforce Lightning to Salesforce Classic.
 - How to navigate from Salesforce Classic to Salesforce Lightning.

- Salesforce Lightning App Builder
 - What is the Salesforce Lightning App Builder?
 - Access the Salesforce Lightning App Builder.
 - Lightning App Builder User Interface.
- Salesforce Home Page
 - What is the Salesforce Home Page
 - How to edit the Home Page in Salesforce Lightning.
 - How to edit the Home Page in Salesforce Classic.
 - How to create a Home Page in Salesforce Lightning.
 - How to create a Home Page in Salesforce Classic.
 - How to activate the Home Page in Salesforce Lightning.
 - How to activate the Home Page in Salesforce Classic.
 - How to deactivate the Home Page in Salesforce Lightning.
 - How to deactivate the Home Page in Salesforce Classic.
 - How to delete the Home Page in Salesforce Lightning.
 - How to delete the Home Page in Salesforce Classic.
- Salesforce Home Tab
 - What is the Salesforce Home Tab?
 - Difference between Salesforce Home Page and Home Tab.

III. Module-3 Salesforce User Management

- Salesforce Data Security and Data Access
 - What is Data Security in Salesforce?
 - Levels of Data Access in Salesforce.
- Salesforce User Management
 - What is User Management in Salesforce?
 - How to Add a Single User in Salesforce Lightning.
 - How to Add a Single User in Salesforce Classic.
 - How to Add Multiple Users in Salesforce Lightning.
 - How to Add Multiple Users in Salesforce Classic.
 - How to Edit a User in Salesforce Lightning.
 - How to Edit a User in Salesforce Classic.
- Salesforce Freeze and Unfreeze User
 - When and How to Freeze a User in Salesforce Lightning.
 - When and How to Freeze a User in Salesforce Classic.
 - How to Unfreeze a User in Salesforce Lightning.
 - How to Unfreeze a User in Salesforce Classic.
- Salesforce Deactivate and Reactivate User
 - When and How to Deactivate a User in Salesforce Lightning.
 - When and How to Deactivate a User in Salesforce Classic.
 - How to Reactivate a User in Salesforce Lightning.
 - How to Reactivate a User in Salesforce Classic.

- Salesforce Unlock User
 - How to Unlock a User in Salesforce Lightning.
 - How to Unlock a User in Salesforce Classic.
- Salesforce Manage User Password
 - Set Password Policies for Users in Salesforce Lightning.
 - Set Password Policies for Users in Salesforce Classic.
 - Reset Password for a User in Salesforce Lightning.
 - Reset Password for a User in Salesforce Classic.
 - Reset Password for All Users in Salesforce Lightning.
 - Reset Password for All Users in Salesforce Classic.
 - Expire Password for All Users in Salesforce Lightning.
 - Expire Password for All Users in Salesforce Classic.
- Salesforce Restrict Users
 - How to Restrict Users at Org Level through IP in Salesforce Lightning.
 - How to Restrict Users at Org Level through IP in Salesforce Classic.
 - How to Restrict Users at Profile Level through IP in Salesforce Lightning.
 - How to Restrict Users at Profile Level through IP in Salesforce Classic.
 - How to Restrict a User through Login Time in Salesforce Lightning.
 - How to Restrict a User through Login Time in Salesforce Classic.
- Salesforce Profiles
 - What is a Profile in Salesforce.
 - Types of Profiles in Salesforce.
 - How to Edit a Profile in Salesforce Lightning.
 - How to Edit a Profile in Salesforce Classic.
 - How to Create or Clone a Custom Profile in Salesforce Lightning.
 - How to Create or Clone a Custom Profile in Salesforce Classic.
- Salesforce Permission Sets
 - What is a Permission Set in Salesforce?
 - Types of Permission Sets in Salesforce.
 - How to Create a Custom Permission Set in Salesforce Lightning.
 - How to Create a Custom Permission Set in Salesforce Classic.
 - How to Assign a User to a Permission Set in Salesforce Lightning.
 - How to Assign a User to a Permission Set in Salesforce Classic.
- Salesforce Object Level Security
 - Set up Object Level Security through Profile in Salesforce Lightning.
 - Set up Object Level Security through Permission Sets in Salesforce Classic.

- Set up Object Level Security through Profile in Salesforce Lightning.
- Set up Object Level Security through Permission Sets in Salesforce Classic.
- Salesforce Field-Level Security
 - Set up Field Level Security through Profile in Salesforce Lightning.
 - Set up Field Level Security through Profile in Salesforce Classic.
 - Set up Field Level Security through Permission Sets in Salesforce Lightning.
 - Set up Field Level Security through Permission Sets in Salesforce Classic.
- Salesforce Field Level Security
 - Field Level History Tracking in Salesforce.
 - How to Set up Field Level History Tracking in Salesforce Lightning.
 - How to Set up Field Level History Tracking in Salesforce Classic.
- Salesforce Record Level Security
 - Record Level Security in Salesforce.
 - What is Organization-Wide Default in Salesforce.
 - How to Set up Organization-Wide Default in Salesforce Lightning.
 - How to Set up Organization-Wide Default in Salesforce Classic.
 - What is Role Hierarchy in Salesforce.
 - How to Set up Role Hierarchy in Salesforce Lightning.
 - How to Set up Role Hierarchy in Salesforce Classic.
 - How to Assign a User to Role Hierarchy in Salesforce Lightning.
 - How to Assign a User to Role Hierarchy in Salesforce Classic.
 - What is Grant Access Hierarchy in Salesforce.
 - How to Set up Grant Access Hierarchy in Salesforce Lightning.
 - How to Set up Grant Access Hierarchy in Salesforce Classic.
 - What is a Public Group in Salesforce.
 - How to Create a Public Group in Salesforce Lightning.
 - How to Create a Public Group in Salesforce Classic.
 - What are Sharing Rules in Salesforce.
 - How to Set up Criteria-Based Sharing Rules in Salesforce Lightning.
 - How to Set up Criteria-Based Sharing Rules in Salesforce Classic.

- How to Set up Owner-Based Sharing Rules in Salesforce Lightning.
- How to Set up Owner-Based Sharing Rules in Salesforce Classic.
- What is Manual Sharing in Salesforce.
 - How to Set up Manual Sharing in Salesforce Classic.

IV. Module-4 Salesforce Apps, Objects and Tabs

- Salesforce Apps
 - What is Salesforce Apps.
 - Types of Apps in Salesforce (Standard and Custom App).
 - Difference between Standard and Custom App.
 - How to set up Custom Apps in Salesforce Lightning.
 - How to edit Custom Apps in Salesforce Lightning.
 - How to delete Custom Apps in Salesforce Lightning.
 - How to set up Custom Apps in Salesforce Classic.
 - How to set up a custom app using quick start in Salesforce Classic.
 - How to edit Custom Apps in Salesforce Classic.
 - How to delete Custom Apps in Salesforce Classic.
- Salesforce Objects
 - What is an Object in Salesforce.
 - Types of Objects in Salesforce (Standard and Custom Object).
 - Difference between Standard and Custom Object in Salesforce.
 - How to build a custom object in Salesforce Lightning.
 - How to build a custom object in Salesforce Classic.
 - How to build a custom object with a tab in Salesforce Lightning and Salesforce Classic.
- Salesforce External Objects and Data Source
 - What are External Objects.
 - What is an External Data Source.
 - How to set up an external data source in Salesforce Lightning.
 - How to set up an external data source in Salesforce Classic.
 - How to create external objects in Salesforce Lightning.
 - How to create external objects in Salesforce Classic.
- Salesforce Tabs
 - What are Salesforce Tabs.
 - Types of Tabs in Salesforce (Standard and Custom Tabs).
 - Difference between Objects and Tabs in Salesforce.
 - How to build a custom tab in Salesforce Lightning.
 - How to build a custom tab in Salesforce Classic.
 - Adding, Removing, and Reordering Tabs in Salesforce.
 - How to add tabs using an app in Salesforce Lightning.

- How to add tabs using the app manager in Salesforce Lightning.
- How to delete tabs using an app in Salesforce Lightning.
- How to delete tabs using the app manager in Salesforce Lightning.
- How to reorder tabs using an app in Salesforce Lightning.
- How to reorder tabs using the app manager in Salesforce Lightning.
- How to add tabs in Salesforce Classic.
- How to delete tabs in Salesforce Classic.
- How to reorder tabs in Salesforce Classic.
- Salesforce Tab Visibility
 - What is Tab Visibility in Salesforce.
 - Types of Tab Visibility in Salesforce.
 - How to set up tab visibility through profiles in Salesforce Lightning.
 - How to set up tab visibility through profiles in Salesforce Classic.
 - How to set up tab visibility through permission sets in Salesforce Lightning.
 - How to set up tab visibility through permission sets in Salesforce Classic.

v. Module-5 Salesforce Fields and Formulas

- Salesforce Field and Types
 - What are Fields in Salesforce?
 - Types of Fields in Salesforce (Standard and Custom Fields).
 - What are the different Field Data Types in Salesforce?
 - How to create an Auto Number Data Type Field in Salesforce.
 - How to create a Formula Data Type Field in Salesforce.
 - How to create a Roll-Up Summary Data Type Field in Salesforce.
 - How to create a Lookup Relationship Data Type Field in Salesforce.
 - How to create an External Lookup Relationship Data Type Field in Salesforce.
 - How to create a Checkbox Data Type Field in Salesforce.
 - How to create a Currency Data Type Field in Salesforce.
 - How to create a Date Data Type Field in Salesforce.
 - How to create a Date/Time Data Type Field in Salesforce.
 - How to create an Email Data Type Field in Salesforce.
 - How to create a Geolocation Data Type Field in Salesforce.

- How to create a Number Data Type Field in Salesforce.
- How to create a Percent Data Type Field in Salesforce.
- How to create a Phone Data Type Field in Salesforce.
- How to create a Picklist Data Type Field in Salesforce.
- How to create a Picklist (Multi-Select) Data Type Field in Salesforce.
- How to create a Text Data Type Field in Salesforce.
- How to create a Text Area Data Type Field in Salesforce.
- How to create a Text Area Long Data Type Field in Salesforce.
- How to create a Text Area Rich Data Type Field in Salesforce.
- How to create a Text Encrypted Data Type Field in Salesforce.
- How to create a Time Data Type Field in Salesforce.
- How to create a URL Data Type Field in Salesforce.
- How to create an Address Data Type Field in Salesforce.
- How to create a Master-Detail Relationship Data Type Field in Salesforce.
- Salesforce Advance Formulas and Functions
 - What are the Advanced Formulas in Salesforce.
 - How to use functions to create formulas.
 - How to use the Date and Time Functions to create formulas in Salesforce.
 - How to use Logical Functions in Salesforce.
 - How to use Math Functions in Salesforce.
 - How to use Text Functions in Salesforce.

VI. Module-6 Salesforce Custom Buttons, Links, Action, Page Layouts and List Views

- Overview of Buttons, Links, and Actions:
 - Overview of Buttons, Links, and Actions in Salesforce Lightning.
 - Overview of Buttons, Links, and Actions in Salesforce Classic.
 - Creation of custom actions in Salesforce Lightning.
- Global Actions and Publisher Layout:
 - What are actions.
 - What are global actions.
 - Creation of global action in Salesforce Lightning.
 - Creation of global action in Salesforce Classic.
 - Creation of global publisher layout in Salesforce Lightning.
 - Creation of global publisher layout in Salesforce Classic.
- Salesforce Object-Specific Actions:
 - What are Object-Specific Actions in Salesforce?

- Types of Object-Specific Actions in Salesforce.
- Creation of Object-Specific Actions in Salesforce Lightning.
- Creation of Object-Specific Actions in Salesforce Classic.
- Record Types in Salesforce:
 - What are Record Types in Salesforce?
 - How to create Record Types in Salesforce Lightning.
 - How to create Record Types in Salesforce Classic.
- Page Layout in Salesforce:
 - What is Page Layout in Salesforce.
 - Features of Page Layout.
 - How to Edit Page Layout in Salesforce Lightning.
 - How to Edit Page Layout in Salesforce Classic.
- List Views in Salesforce:
 - What are list views?
 - How to add and remove list views in Salesforce Lightning.
 - How to add and remove list views in Salesforce Classic.
- Search Layouts in Salesforce:
 - What is Search Layout?
 - What is the use of Search layout in Salesforce?
 - How to add Fields in Search Layout in Salesforce Lightning.
 - How to add Fields in Search Layout in Salesforce Classic.

VII. Module-7 Salesforce Schema Builder, Process Builder and Validation

- Salesforce Schema Builder
 - What is Schema Builder?
 - Creation of custom object in Schema Builder in Salesforce Lightning.
 - Creation of custom object in Schema Builder in Salesforce Classic.
- Validation Rule in Salesforce:
 - What is a Validation Rule?
 - How to create a Validation Rule in Salesforce Lightning.
 - How to create a Validation Rule in Salesforce Classic.
- Process Builder in Salesforce:
 - What is Process Builder?
 - Components of Process Builder.
 - Evaluation Criteria for Process Builder in Salesforce.
 - Actions Performed in Process Builder.
 - Create a Process Builder in Salesforce Lightning.
 - Create a Process Builder in Salesforce Classic.

VIII. Module-8 Salesforce Reports and Dashboard

- Salesforce Reports and Types
 - What are Reports?
 - What are Report Types?
 - Report formats.
 - How to Create Reports in Salesforce Lightning.
 - How to Create Reports in Salesforce Classic.
 - Types of Reports.
 - How to Create Opportunity Reports in Salesforce Lightning.
 - How to Create Opportunity Reports in Salesforce Classic.
 - How to Create Contact Reports in Salesforce Lightning.
 - How to Create Contact Reports in Salesforce Classic.
 - How to Create Lead Reports in Salesforce Lightning.
 - How to Create Contact Reports in Salesforce Lightning.
 - How to Create Contact Reports in Salesforce Classic.
 - How to Create Campaign Reports in Salesforce Lightning.
 - How to Create Campaign Reports in Salesforce Classic.
- Salesforce Report Scheduling and Formulas
 - How to Create Scheduling Reports in Salesforce Lightning.
 - How to Create Scheduling Reports in Salesforce Classic.
 - How to Create Report Formula in Salesforce Lightning.
 - How to Create Report Formula in Salesforce Classic.
- Salesforce Dashboard and Dynamic Dashboard
 - What is a Dashboard?
 - How to Access Dashboards in Salesforce.
 - Components of Dashboards in Salesforce.
 - How to Create Dashboards in Salesforce Lightning.
 - How to Create Dashboards in Salesforce Classic.
 - How to Create Dynamic Dashboards in Salesforce Lightning.
 - How to Create Dynamic Dashboards in Salesforce Classic.

IX. Module-9 Salesforce Data Management

- Introduction to Data Management.
- Salesforce Data Import
 - What is Data Import in Salesforce.
 - Different tools for importing data in Salesforce.
 - Difference Between Data Import Wizard and Data Loader.
 - How to import data in Salesforce Lightning.
 - How to import data in Salesforce Classic.
- Salesforce Lead Data
 - Import Lead Data in Salesforce.
 - How to import lead data in Salesforce Lightning.

- How to import lead data in Salesforce Classic.
- Salesforce Data Export
 - What is Data Export.
 - Tools for exporting data in Salesforce.
 - How to Export data in Salesforce Lightning.
 - How to Export data in Salesforce Classic.
- Data Loader in Salesforce:
 - What is Data Loader.
 - How to install Data Loader in Salesforce.
 - Insert Data with Data Loader in Salesforce:
 - How to insert data with Data Loader in Salesforce Lightning and Classic.
 - Update Data with Data Loader in Salesforce:
 - How to update data with Data Loader in Salesforce Lightning and Classic.
 - Upsert Data with Data Loader in Salesforce:
 - How to upsert data with Data Loader in Salesforce Lightning and Classic.
 - Export and Export All Data with Data Loader in Salesforce:
 - How to Export data with Data Loader in Salesforce Lightning and Classic.
 - How to Export All Data with Data Loader in Salesforce Lightning and Classic.
 - Delete Data with Data Loader in Salesforce:
 - How to delete data with Data Loader in Salesforce Lightning and Classic.
- Salesforce Custom Objects
 - Create Custom Object from Spreadsheet in Salesforce:
 - How to create a custom object from a spreadsheet in Salesforce Lightning.
- Salesforce Record ID:
 - What is Record ID in Salesforce?
 - What is the difference between a 15-digit and an 18-digit Record ID?
 - How to convert a 15-digit ID into an 18 Digit?
- Salesforce External ID:
 - What is an External ID?
 - How to use an External ID in Salesforce Lightning.
 - How to use an External ID in Salesforce Classic.
